Your success is our goal

This catalogue will provide you with a wealth of new ideas. It gives details of our products and illustrates practical applications. It will help you to improve your ability to plan, design and realize your customers' dreams.

Behind each separate idea lies the strength of combined experience. We are a family-managed firm with a tradition of innovation and customer service going back over a hundred years. Remaining true to our origins, we offer our customers opportunities to increase their competitive advantage through our continuous innovation.

We operate throughout the world. This means we're within reach wherever you need us. The consistently high quality of our products helps you to maintain your good reputation with your customers. Our reliability makes your planning easier.

We guarantee our products and services with our name and with all that it stands for.

Yours sincerely,

Team Hettich India

Kitchens Designed by:-
Vivek Bangde - Architect & Furniture Designer
Amit Marathe - Industrial Designer.

introduction

"If this business were split up, I would give you the land and bricks and mortar, and I would take the brands and trademarks, and I would fare better than you."
John Stuart, Chairman of Quaker (ca. 1900)

The tag line with the logo says it all, HETTICH is **Technology for Furniture**. This is what we have been doing with great success for over 100 years, with a presence in over 100 countries spread across 5 continents.

Our Brand Values - **Quality, Innovation, Reliability, Closeness to Customers** are what we stand for. All our actions are with the end user in mind. We want happy and satisfied customers at the end of the value chain, who guide our every activity.

With the right mix of innovation and continuity, Hettich offers its customers high value and reliable solutions that put life and movement into furniture.

In keeping with changing lifestyles, the kitchen too has undergone transformation; it is no longer just a place to cook. It is a style statement of the home-maker and is meant to offer convenience, ease and efficiency to the consumer besides being hi-tech and looking good. That's why it's so important to get efficiency moulded into its design.

Hettich helps kitchen manufacturers make elegant, convenient and ergonomically designed user-friendly kitchens.

Imagine a kitchen where drawers open and close silently and effortlessly at the mere press of a hand or knee - **EASYS**. Or a new way of storage at eye level under the wall unit in the kitchen that provides a stylish and convenient access to crockery, jars, packets and more - **COSARIO**. Or wings attached to your drawer system for organized storage and easy access of small items/packets - **ORGAWING**. Or imagine not having to stand on a stool or stretch your toes to retrieve small items stored at the back of wall mounted cabinets at a height - **CARGO IQ**. These are just some of the **UNIQUE** solutions offered by Hettich for your kitchens.

With its vast experience of doing business with some of the world's biggest and best kitchen manufacturers, Hettich is proud to present 20 contemporary and classic style patterns for your kitchen, catering to different budgets that will help you choose a kitchen of your dreams.

HETTICH Furniture Fittings - German quality you can trust.
